8. **List all other physical improvements** on the property, including agricultural barns and other structures and the condition and number of ranch roads:

9. **Describe your agricultural operation and the agricultural productivity** of your ranch.

Please list the type and approximate number of livestock?

Approximately how many **acres are usable for grazing**? _____

How many **fenced pastures** are maintained? _____

If applicable, approximately how many acres are **usable for dry croplands**? _____

Describe the **type of crops**:

If applicable, approximately how many acres are useable orchards or vineyards? _____

10. Provide the following information regarding your **water sources** (*number of each*):

- Perennial Streams _____
- Intermittent Streams _____
- Springs _____
- Water Tanks _____
- Troughs _____
- Wells _____
- Reservoirs and stock ponds (**number** of, and estimate the **ac/ft.** of each.)

-
- Do you have **current diversion permits and or registrations** for the reservoirs and stock ponds? Explain:

11. **Does the ranch suffer from any invasive species infestations?** How do you currently manage weeds and thistles on your ranch?

12. **Describe any non-agricultural development pressures** for your ranch?

Habitat, Connectivity, Species, and Watershed Values

Please answer the following questions to the best of your ability. They are important because they address the priority criteria that several State and Federal agencies are using to rank projects for funding programs. These funding programs focus on the protection of watersheds and of wildlife and plant habitat.

1. **HABITAT:** Please give an **overview of the biological and habitat values** that your ranch provides *(including wildlife habitat, creeks, riparian and wetland habitat, native vegetation, some of the common and unusual plants and animals, etc.)*

2. **What measures do you currently take to protect the biological and habitat values of your ranch?**

3. **What watershed(s) is your ranch located in?**

I understand that the evaluation by Marin Agricultural Land Trust of my property is based upon the information submitted with my application, current use, and configuration of my property.
